

Azar Ansar

8729856601 | azarmohamed96@yahoo.com | Evanston, IL

Summary

Tech-savvy software engineer excelling in full-stack development, cloud computing, and leadership. Driven by passion for technology, I tackle complex challenges with agility and innovation. Committed to perpetual learning and growth, I flourish in dynamic environments where collaboration fuels success.

Experience

Stratus Networks | Chicago, IL

Full Stack Developer | 04/2024 - Present

- Built and maintained the backend, frontend, and databases for the company using Spring Boot, Angular, MySQL, and PostgreSQL, ensuring everything worked smoothly together.
- Created an Office Outlook Add-in from scratch without any prior experience, quickly picking up the necessary skills to deliver on time.
- Made the company's website noticeably faster by optimizing database queries and implementing techniques like preloading, which improved both speed and user experience.
- Played a key role in the team of just three developers, taking on significant responsibilities and helping the company achieve its goals.
- Designed clean, consistent, and user-friendly interfaces with Angular Material UI, making the applications more intuitive and easy to use.
- Improved database performance by refining schemas and queries, which made the system more reliable and efficient.

Tata Consultancy Services (TCS) | Des Plaines, IL

Software Engineer | 10/2021 - 12/2023

- Developed a dynamic web application using the Mean Stack, showcasing full stack expertise in MongoDB, Express.js, Angular, and Node.js.
- Designed and implemented RESTful APIs for seamless communication between frontend and backend systems, ensuring efficient data transfer and user interaction across multiple platforms.
- Contributed to a Spring Boot project, leveraging Java for backend development and enhancing system functionalities.
- Spearheaded end-to-end data engineering processes for Albertsons Group of Companies, advancing from an ETL Tester.
- Utilized Azure Cloud, Snowflake, MySQL, Jira, CI/CD, Confluence, and Git for robust ETL testing and data optimization.

Projects

Office Add-In for Internal Team

- Built an Office Add-in with authentication, leveraging Angular 19, Office.js, Spring Boot APIs, and PostgreSQL.
- Delivered a secure and efficient internal tool, streamlining team workflows.
- Showcased adaptability and expertise in integrating frontend technologies with Microsoft Office tools.

Reporting System Projects

- Developed and maintained reporting systems using Angular 7, Spring Boot, and MySQL for various internal purposes.
- Enabled report uploads and downloads in multiple formats, enhancing efficiency and accessibility for the team.
- Delivered high-quality, reliable solutions that supported decision-making processes within the company.

Data Migration Marvel at Albertsons Group:

- Assisted in implementing ETL processes on Azure Cloud, Snowflake, and MySQL.
- Contributed to enhancing data architecture and accessibility.
- Worked within a team to define migration requirements and execute strategies.
- Gained experience in data engineering and cloud technologies.

Ecommerce Empowerment at TCS:

- Developed backend services using Java, MySQL, and Hibernate.
- Contributed to core functionalities for an Ecommerce platform.

- Worked in an agile team environment to meet project goals.
- Acquired hands-on experience in backend development practices.

Cutting-Edge Local Marketplace App:

- Contributed to the development of a local marketplace app for Android and iOS.
- Utilized Node.js, Express.js, MongoDB, Angular, and Ionic.
- Gained exposure to full-stack development principles.
- Assisted in creating a modern and scalable mobile application.

Education

Devry University | Chicago, IL

Computer Engineering Technology | 01/2021

- Completed Computer Engineering Technology program at DeVry University
- Attained a commendable GPA of 3.29, reflecting dedication to academic excellence
- Engaged in hands-on projects, fostering practical application of theoretical knowledge
- Demonstrated a passion for innovation and problem-solving in collaborative initiatives

Skills

Technical Skills

Angular, JavaScript, TypeScript, Node.js, Express.js, Java, MongoDB, MySQL, AWS, Azure, RESTful APIs, GraphQL, Docker, Kubernetes, Spring Boot, Various Operating Systems, Git, GitHub, GitLab, Jest, Mocha, JUnit, Cypress, Jenkins, Azure DevOps, Figma, Adobe XD.

Soft Skills

Leadership, Bilingual, Tech-Savvy, Critical Thinking, Problem Solving, Collaborative Team Player, Adaptability, Communication Skills, Attention to Detail, Innovation, Project Management, Agile Methodologies, Mentorship, Client Interaction, Time Management.
